

CONRAD POLLMANN MERCEDES

Crowndeed are delighted to display one of many new unique hearse designs by Europe's Premier Coachbuilder, Conrad Pollmann of Bremen, Germany. Featured here is the new curved glass design on the Mercedes 124 chassis.

Pollmann are the largest manufacturer of hearses on Mercedes Benz chassis and naturally their work carries full warranty not only in England but internationally.

You can plainly see the quality of the workmanship that goes into every Pollmann product. Why else would they be specified by the world car producers to manufacture on their chassis.

The featured hearse shown is an English right hand drive Mercedes Benz 260 six cylinder engine, automatic hearse. It has alloy wheels, centre front arm rest, leather gear lever, electric front windows, catalyzer and of course the chassis was custom built by Mercedes to become a hearse; therefore it has special brakes and electrics.

The interior features a double deck with bearer seats and cover boards, with opening doors to underdeck. There are many special features on this car to ensure ease of use and to remain an obvious source of pride to both owner and hirer. The price of this car is 153,298DM plus VAT.

Maybe it's time for you to buy such a hearse and thus truly move once and for all into "world class".

For more information, please contact Crowndeed Ltd on (04353) 3244 or (0422) 377840, or write to Crowndeed Ltd, Whatleys Garage, High Street, Horam, East Sussex TN21 0EL. Alternatively, Conrad Pollmann Zum Panrepel 1, 2800 Bremen 11, Germany.
